Jonh Shelborne (MS)

## Resolution Information

### Resolution

Resolve that the AARC Program Committee present the AARC and House of Delegates Awards prior to the presentations of the ARCF and all other Awards, beginning at the AARC Congress in 2025.

### Executive Summary

Switching the time slot of the AARC/HOD Awards will help engage younger members and leaders and encourage them to want to be recipients of these awards someday. Also, attendees would be more likely to remain for the presentation of the other prestigious awards.

### Desired Outcome

Increase participation in Awards Ceremony.

### Strengths

More interest of the membership in the AARC.

### Problems

None. Let us be conscious that the Award Ceremony at the AARC Congress is an AARC function and the presenting of the AARC Awards should take priority over others at this function.

### Opportunities

Promote better participation in award ceremony.

### Barriers

Organization and Program Committee unwilling to change template.

## Impact

**General Membership**

Yes

**HOD**

Yes

**AARC Officers & BOD**

Yes

**State/Federal Legislation**
